Specialized in the production
of tabletop products
Proizvodnja papirne galanterije

About SETI

Our business process is in tune with our way of life. We are a leading company in Slovenia, specialized in the production of tabletop products. Our niche is the production of napkins, table covers and coasters, thus we focus on customers who have the most direct benefit from our unique services, which results in

Why choose us?

1. High quality technology that focuses on two main intertwining processes - production flexibility and individual customer need
2. We use top quality Airlaid material for manufacturing our products, which possesses the advantage of being highly absorbent, has a textile-like appearance, and has the option of folding for decoration purposes.
3. When it comes to producing our products, we use the most modern technology, resources and our own innovative solutions, to ensure maximum productivity within the production process, affordable pricing and catering to our customer's needs.
4. Aside from the aforementioned aspects, we do not only strive to please our customers, but also take great care and responsibility when it comes to environmentally friendly solutions, which are of key importance to us.

Colors

Choose up to two colors for your print.

We use non-toxic water-based colors to ensure safety for use, as well as protect the environment.

Choose a combination of our colorful napkins with up to two colors for your print.

Standard shades

Materials used for the production of our products are certified for safe contact with skin and food, while also addressing the importance of sustainable sourcing and our ecological imprint.

We offer a variety of shades of top quality Airlaid, Softpoint and Tissue napkins made from 100% cellulose, for a colour combination catered to your liking.
